## OUR COMPANY

Our company was established in 2004 as a family company dedicated to accounts management and fiscal management in the region of Pasto, Colombia.

Now the company has the experience of more than one decade in the sector of financial, bank, international consultancy and a broad category of customs service.

This way we have been helping people to make their dreams come true.

## INTERNATIONAL DEPARTMENT

We have more than 5.000 customers, those who have been benefited with the service of our company around the country, and we have been offering the possibility to all small traders to stop being a small company and start exploring the trade world.

We assist and support into to the process of import and export and we make financial consultancy to increase the profit of all these companies.

## SMART HOME

The real estate and construction is a sector of the economy that has been growing quickly, that is why we take this opportunity to become one of the first company offering a safe and comfortable home to those customers with competitive prices and new methods of construction.

Our interest of being the largest company we took the necessity of transforming the real estate introducing the Smart Homes with the help of J&M Company, and we believe that the future is now.
